### **Transcript: Part 1:**

Big cities around the world have traffic problems. Mumbai in India is one of them. Mumbai is one of the most congested cities in the world. Traffic jams happen nearly every day, so drivers have to spend a lot of time on the road.

There are several reasons for traffic jams in this city. One reason is its increase in population. With nearly 20 million, Mumbai has too many people on the road. Another reason is that the roads in Mumbai are narrow, and many are not in good condition. Also, many road users do not obey the traffic rules. As a result, this problem is getting worse and worse.

### **Part 2:**

Last summer, I visited India with my family. We joined a big festival called Diwali. People celebrate it with lights, music, and dancing. My uncle believes the light is a symbol of hope and happiness. It lasts for five days, and each day has special meaning. On the first day, we helped decorate the house with candles and flowers. My sister and I wore beautiful costumes with bright colours. At night, we watched people perform traditional dances in the streets. On the third day, we had a big feast with many sweet dishes. I tried some spicy food, too! It was delicious. We also gave gifts to our neighbours and played games. It was one of the best trips in my life. I hope we can go back next year.
